

251 Gymleco triceps pushdown

200 series Cable and Smith machines

Effective crosscable pull lift for the triceps musculature. Arm training with triceps pushdown offering high ergonomics and stability.

The backrest provides good stability and therefore a better effect on the triceps musculature. The machine is equipped with a loop at floor beam for attaching a strap to an exercise belt providing additional stability.

- Low start-up load
- Larger weight block (optional)
- One handle included
- Standard frame color: black
- Standard color cushion: black / red
